

STEEL AND CONCRETE - Drawings of new L and N Railroad Bay bridge released by Army Engineers in conjunction with information on railroad's construction application. Completed bridge span will be in line with new U.S. 90 span permitting straight passage by vessels navigating channel.

## Bay bridge L & N files plan

U.S. Army Corps of Engineers has received application from Louisville and Nashville Railroad Co., for approval of new bridge plans over the Bay of St. Louis.

The 10,168-foot structure, estimated to cost \$4.9 million, will be of concrete and steel with a 288-foot steel drawspan. Clearance figures have been given as 100-feet horizontal and 13.9-feet vertical when in closed position.

Under consideration by L and N for many years, construction should commence late this summer and will require about two years to complete.

According to the application the existing channel span will be operated for navigation until near the end of construction when it will be necessary to close same, for about 10 days, to complete the new structure and for the new span to become operational.

Objections to construction should be filed no later than June 18 with the Corps.

MTF patrol pact set after 'recessed' meet

The term "recessed conference" was substituted for "executive session" by the board of supervisors Monday as it spent some two hours behind doors closed to the press.

The apparent topic was a contract with NASA for the county to supply a patrol of Mississippi Test Facility's buffer zone.

Representing NASA were Marion Kent, liaison man from Marshall Space Flight Center at Huntsville, Ala.; and from Mississippi Test Facility, Henry Williams of the facilities division, James Maxwell, contracts; Hi Ling, legal, and B. U. Jones, community relations.

The jury reached its decision on the basis of instruction 3 given Judge Leslie B. Grant. This provided that, if the jury believed the plaintiff had signed the contract with the defendant's

## School bonds split board 2-2

Supervisors voted to retain their attorney, Lucien M. Gex, as counsel to handle the \$350,000 county school bond issue at their meeting Monday after considerable debate as to who should be entitled to the fees involved.

Selection of Gex came after the board split, 2-2, on hiring Walter J. Phillips, school board attorney and partner in Gex's firm. Debate over the question continued after the supervisors adjourned for the month.

Dolph Kellar of Beat 2 moved that the attorney's job, which carries a 1 per cent fee (\$3,500 in the case of this issue) be awarded Phillips, H.G. Dean of Beat 1 seconded, concurring with Kellar that the school attorney was entitled to the payment in view of his preliminary work on the bond issue.

These two voted for Phillips while Charles Lavinghouse of Beat 3 and R.G. Hubbard, Jr., of Beat 5, president of the supervisors, voted nay.

Hubbard argued that the work was actually done by the bond attorneys, normally Charles and Trauericht of St. Louis, Mo. He maintained the local attorney simply signed papers from the bond attorneys and under normal practice Gex was entitled to the job and the fee.

The matter was finally resolved when Kellar moved, after his first motion was unsuccessful, that Gex be appointed, Dean seconded and it carried unanimously. Jack Lott of Beat 4 was absent.

## Waveland to increase street lighting density

Coleman Avenue, Waveland, should be lit up like a Christmas tree starting in about three or four weeks, John Royce, sales engineer with Mississippi Power Co., gave the time estimate after the mayor and board of aldermen at Tuesday's meeting authorized an increase in street lighting of the area from 27,000 lumens to 154,000 lumens.

In the change, the present 11 incandescent lights of 2,500 lumens by 22 mercury vapor lamps of 7,000 lumens each. Nineteen of the new lamps will be on Coleman Avenue, one on Bourgeois Street opposite the fire house, and two on Beach Boulevard near its intersection with Coleman. Monthly increase in cost for the new service is \$56.50.

In line with the town's annexation plans the aldermen authorized Mayor Garfield Ladd.

## Week's rain brings relief

Bay St. Louis got 3.5 refreshing inches of rain last weekend, the first to fall here in almost a month and the most appreciable in two months.

Brother Joel at St. Stanislaus College observation station reported 2.6 inches in his reading at 7 a.m., Saturday and .9 inch Sunday. The last rain he had record of was .35 inch April 25 which he said fell only in scattered sections of the city.

In other civil cases during the last week default judgment in the value of \$600, for a '66 model pickup truck, was returned for General Motors Acceptance Corp. vs. Hugo Favre; Robert Davis vs. Mr. and Mrs. R.A. Jumper, dismissed as to Jumper; Emporium vs. Mr. and Mrs. Carl D. Lavaraca, not entered; Associates Discount Corp. vs. Horace Tynes, defense allowed 90 days to answer.

# United Gas gets west county nod

United Gas Corp. expects to start installation of natural gas lines to serve the Pearllington area next week. And if the weather and a few extraneous factors are willing the service should be available to customers in that section in about 60 days.

That was the word Tuesday from R. Frank Nowlin, assistant manager for United Gas in the Gulfport district, after the Public Service Commission on Monday awarded his firm a certificate of convenience and public necessity to serve the area from Clermont Harbor to Pearllington.

Nowlin said engineering studies are now underway to provide service to Clermont Harbor and Lakeshore. He indicated he was not prepared to say when construction of lines there might start but said he hoped service would be available there before this fall.

Hyde Construction Co. of Gulfport has been awarded the pact for installation of the line to Pearllington and is to start work as soon as its equipment is moved on the scene.

The job calls for excavation and installation of a main line from the dehydration plant of Tarpon Co.'s line from the Ansley Field at a point south of U.S. 90.

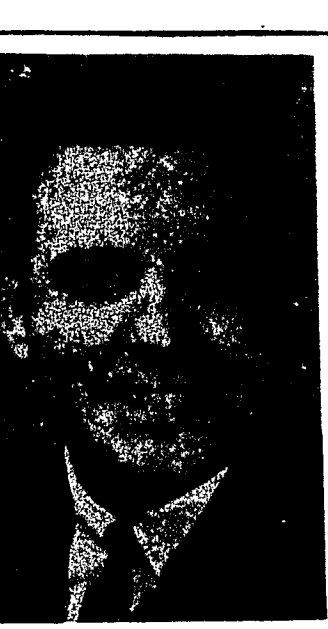

Work will include laying of about 3,000 feet of 4 1/2 inch pipe; 28,000 feet of 3 1/2 inch lines, 26,000 feet of 2 3/8 inch pipe, 22,000 feet of 1 1/2 inch pipe and a quantity of service lines to individual homes.

In the first year, United Gas figures it will serve 300 customers.

The future will be governed by the growth of the area. Nowlin indicated that actual service may start as soon as each area is hooked into the supply line rather than waiting for completion of the whole job.

Right of way and easement requirements have been checked.

## Vacationing tot is 1st fatality

Sharon Lee Conroy, 3, died late Thursday in Gulfport Memorial Hospital, after suffering crushing injuries to the head and neck when struck by an automobile about 1 p.m. the previous day.

The child, daughter of Mr. and Mrs. Joseph Conroy of New Orleans, was visiting her grandmother, Mrs. Gladys Sue Stastik at her home 456 Beach Blvd., Waveland, when the accident occurred. She was apparently returning from swimming when she dashed into the path of an automobile driven by Max J. Bishop of Metairie, La. Bishop and Mrs. Stastik rushed her to Hancock General from where she was transferred to Gulfport.

Waveland Marshal Fred Bourgeois, investigating officer, said hearing had been set in J.P. Court of Nolan Ladd on Tuesday, but postponed until June 1, upon request of

Bishop's legal counsel.

Funeral services were in New Orleans on Saturday.

Bobby Benigno, son of Mr. and Mrs. Charles Benigno of Bay St. Louis, was given emergency treatment at Hancock General and transferred to Veterans Hospital in Biloxi for observation following a one car accident at 9 p.m. Sunday, May 23.

The mishap occurred when Benigno apparently lost control of his 1960 Mercury on a curve on Jeff Davis Avenue in Waveland, striking and knocking down two utility poles. The vehicle was demolished. Assisting Marshal Bourgeois were Deputy Marshal Gerald V. Price, Jr. and Special Policemen Kenny Fayard, Cliff Vogt and R.D. Russell.

## Bayside Park home wrecked by vandals

"We just don't know why we did it" three small boys, aged 7, 8 and 9, told Sheriff Sylvan J. Laddner, Jr., after being apprehended and charged with vandalism of the Bayside Park home of Mr. and Mrs. Paul W. Brumble.

Damage, which included taking a movie camera apart and unwinding film, battering and dousing walls with water and other liquids; smearing furniture with shaving cream and broken eggs; littering floors with papers and records, appeared to the Sheriff to be the work of much older persons. He described it as the worst case of destruction he'd seen in 16 years of police work.

The act occurred after Brumble had left for work at 6 a.m. Thursday, taking his wife to visit a relative. He reported the incident to Laddner, who was assisted in the initial investigation by Chief Deputy Edo Depreo and Deputy Raul Telbhard and Gulfport Identification Officer Paul Hale.

The three, picked up and questioned Friday morning, confessed to being the culprits. They were released in custody of their parents and referred for action to Hancock County youth court.

Five television sets and eight radio sets were reported stolen from A-J Radio and TV Service by the owner, Gabriel Foussanon on Friday.

Investigators Sheriff Laddner, Depreo and Hale discovered access had been gained through a hole roughly two by three feet cut through the metal wall in the rear of the building. Missing merchandise included two 23-inch table model televisions, two 19-inch portable sets, a 23 inch color set and eight transistor portable radios.

## Fire is county problem

Area forester Arthur E. Verdel, Moore, cited four main reasons for the damage to one of the county's biggest assets.

Some people resent big land owners and set fires out of sheer spite, Moore said. "Other fires, the type we call cattle fires, are set under the impression that such will make new green grass grow quicker," he continued. "Actually the cattle feed rough grass as well as new grass and, in the long run, it is the farmer who suffers."

The third cause Moore gave was laid at the feet of hunters. He said hunters set fires to thin out thick pine areas. Apart from destroying controlled planting programs and valuable woods, these people fail to realize that through providing a variance of area and through active game conservation programs Mississippi now has more game than ever before.

Finally Moore listed trash burning as his last major fire cause. New land owners were, seemingly, the biggest culprits in this category. Without adequate safeguard flaming trash can soon cause a major conflagration.

Indicted on a second charge, new land owners, it seems, are also guilty of permitting land clearing fires to escape from their control. This is caused, Moore declared, by lack of fire lanes and inadequate preparation. Last month one new Hancock County farmer let a fire

get away from him and he died from a heart attack.

Late spring fires do more damage to trees than any other type. Through greater land generation, the fire seasons unburned and scorched trees in the fire zone making them vulnerable to attack from insects and beetles.

With highways, pipelines and power lines eating up productive lands, the object of the forestry commission is, with other groups, to utilize all lands to fullest extent. For example, new Interstate Highways 10, 59, 55 and 20, have caused a 7,200 acre land loss to Mississippi.

Although giving first priority to fighting fires, forestry personnel are also responsible for managing 16th Section lands, providing advice and assistance to landowners, timber stand improvement work, utilization of timber to obtain maximum commercial useage, and timber land management advice.

Mississippi has 90,000 people working on forest or forestry products and 25 cents of every dollar made in the state is attributable to timber or timber products. Fifty-seven per cent of land in Mississippi is classed as forest land and with 283,000 plus acres devoted to the production of forest products in Hancock County, locally the percentage is higher.

# STING RAY

As we've been around these parts long enough to think just like a native we're always amazed at some of the questions asked by those just arriving. Last week a young man entered the office to purchase a paper hoping to find a house to rent. This occurred on one of the 85 degree days, when even your bloodless reporter was sweating, and he wanted to know "when it starts to get hot around here?" Panting, we replied that if he wasn't suffering in the moonday sun, he had no worries, because warmer temperatures are somewhat of a rarity. He then wanted to know why he wasn't eaten alive by mosquitoes and gnats, as all advance publicity had the area literally black with insects and, almost in the same breath, he queried as to how many people are stung weekly by stingrays when he spotted the them about Janet Crow's recent mishap. We reassured him that while, at times, mosquitoes and gnats are annoying, one can safely venture outside at almost any hour of the day without drastic loss of blood and, as far as the sting ray menace goes, as well as we can recall it's been several years, not weeks, since the last such accident was reported. This all leads up to the fact that someone is sending out some vastly exaggerated reports on the hazards of living on the coast and neglecting to mention that the advantages vastly outnumber the few minor drawbacks.

## Our slip is showing

Before plowing into current happenings, we'd best clear up last week's main goof. We erred when stating that Irene and Lloyd Bourgeois are expecting. . . when we talked with Irene on the phone, office machines were all kicking out their usual amount of noise and we misunderstood. What Irene really said was that son Pat and wife Judy (nee Taconi) expect their second child in August. Fortunately Irene and Lloyd are both endowed with excellent senses of humor and the whole thing was vastly

seemingly. Apparently everyone they knew read the article and they were bombarded with phone calls, some of congratulation, others of sympathy.

Rhodes Garriga returned from Baton Rouge where she visited her brother and sister-in-law, in time to spend most of last week driving around in the lovely new gold-tooled automobile she and husband Lathon acquired Saturday, a week ago.

Mr. Allen Johnson arrived Saturday afternoon to spend the weekend in his Jordan River home. He was full of glad tidings regarding the four unit addition to Winn-Dixie shopping center. Plans are complete for a drug store and negotiations are under way for a laundry, finance company and dress shop.

Ali around town

Get well wishes are on the way to Camille Fraering who suffered a heart attack while in the Bay on May 15. He was taken to New Orleans and hospitalized. Herb Baron visited him Friday and reports Camille is well on the road to recovery. Camille, who doesn't let a little thing like a heart attack phase him, wanted to eat a couple of sandwiches before entering the hospital as he was certain he would be admitted too late for the evening meal. His wife, Ione told Herb that after a mighty struggle, nurses gave up the idea of confining him to bed at all times. He has a hearty distaste for certain usual routine procedures.

Grace (Mrs. Sid) Gould surprised daughter Nancy (Mrs. Lucien, jr.) Gex, when she arrived here from Montgomery, Ala. on Thursday. She drove down to attend grandson Bear's graduation, from kindergarten, that was!

Hearty congratulations are on the way to newly weds, Eleanor and Jimmy McFie, who spoke their vows at St. Ann's Catholic Church in Clermont Harbor on Sunday, May 16. We wish the best of everything for both, and sincerely hope that Jimmy has a fondness for animals, as Eleanor is one of our animal lovingest friends.

Good news from Veterans Hospital regarding Jeff Fusch who underwent brain surgery there on Tuesday. Doctors were not in the least optimistic over his chances but, as of Saturday, although still on the dangerously ill list, hopes were high for his complete recovery. He has recognized visitors and several expected complications did not develop.

Virginia (Mrs. Edgar) Ladner's brother, Jesse LaFontain, who also had major surgery in the same hospital last Sunday, is thought to be out of immediate danger.

Marti (Mrs. John) Glover, and children Bud, Dianna, Merrily and tiny (and we do mean tiny) Johnny, left Monday, with her mother Merle Stevenson, for a month visit in Kansas City.

Olga and Bob Scivicque have all sorts of things to celebrate. Their home was selected as May Garden of the Month, by the Bay-Waveland Garden Club, roads are being laid out in their Hancock Heights Subdivision, Bob cut his 61st birthday cake Monday, and Olga told us what she'll celebrate on June 1, but no one would believe us if we passed on the information... she looks much too young!

Mary Debenport was positively beaming at son Parker's graduation from Bay High on Friday night, despite the fact that she viewed the ceremony from a wheel chair it being exactly one week since she had major surgery at Hancock General.

Fifi, Delores and Norton Haas' fluffy poodle, would be knitting booties if she had fingers instead of paws!

Camp time

Lots of activities to keep the kids occupied during vacation. St. Joseph's first day camp for girls 7 to 14, Coach Billy Murphy will aid parents of young gentlemen with his second coach's day camp, and Owen Williams will do his bit for the musically inclined. Owen will be in Bay High School band room each Tuesday night between 7 and 8:30 p.m., to give free instruction to any boy or girl who wants to keep in practice, learn to play a new instrument or any newcomer desiring to join the Tiger band.

We've heard nothing but raves regarding St. Clare's first dance since well before Carnival, held at the Parish Hall Saturday night. The band was superb featuring a trumpet player second to none. In fact they were so good the hat was passed and the festivity went on into the wee hours. Just a few in attendance included Kitty and Ollo Mollere (celebrating Kitty's birthday in the process); Phyl and Jimmy Lagasse, Dot and Merlin Markel, Ann and Henry Deville, Betty and Fred Rose, Gerri and Charlie Johnson, Shannon and Tom Roseberry, Lillian and Joe Griffin, Fran and Bob Lucas—in fact, just about everybody in Waveland and of course some from neighboring 'cities'.

The crawfish etouffe party at Bay-Waveland Yacht Club also attracted a large number of local gourmets. Just a few present, including that renowned chef, Ed Heath and wife Katherine, were Nancy and Lucien Gex, Gerri and Sam Blanchard, June and Don Coffey, Rosemary and Leroy McFarland, Betty and C.W. Steers, Rita and Marion Wolfe, etc., etc.

Lest we forget, again; the (Cont. on Page 5-B.)

### Fish notes

And we're loaded this week. Ralph Morel says it was just like old times when he and angling buddy Lucien Perniciaro hit Half Moon last week. The specs were biting just about as fast as they could bait their hooks. Like Lang, captaining Clam Sert's Gretchen while his Margaret C. is on the ways, reports catching two tubs full in the same location Saturday and Sunday. Judge Christianberry and wife, Mr. and Mrs. Eddie Boyle and daughter Phyllis, were aboard and enjoyed every minute of the trip. Largest speckled trout reported was landed on the seawall by Jackson Ridge by old pro, Les Ferrell. It tipped the scales at a whopping six pounds, and after mounting, will hang in a spot of honor in his St. Joseph Street home.

### Ailing chums

One of our very favorite people, Rita Cue, is up and about again after being quite ill. Sorry we didn't know about it in time to send her get well wishes, but it's certainly good to see her looking fine and not only able to take nourishment, but also to do justice to a nice, thick steak at the Broadview Restaurant. We're not too late to send Oswald Villere his greeting. He entered Hancock General for tests Monday afternoon. Shirley (Mrs. Jim) Garriga was also under the weather on Monday. She was suffering with a severely sore throat. Betty, Richard and Rickey Bourgeois left for their home in Charleston, S.C., late Saturday. More newcomers to welcome—Carol and John Hancell and two sons are now occupying Marie and Marvin Mancil's ex-home on Vacation Lane. John's with North American—they came here from Denver, Colo. Another North American employee, Dan Campion arrived in Waveland Sunday. He, wife Ruth and four daughters have (Cont. on Page 8-B.)

Polly Peers...

(Cont. from Page 5-B.) been living in the California home they purchased from now-natives Elmore and Bob Whitson, Ruth and the girls will arrive in July.

A very happy birthday wish goes to Gail Mollere, who cut one cake on the actual date, Monday, May 24, but will have her party on Saturday.

A group of Polly Fagen's friends surprised her with a treat at her St. Charles Street home Saturday night in celebration of her return from Paris-A-Grille, Fla. The food prepared by Fran Lucas with the assistance of Mari Mancil, Myrtle Downaway, and Lillian Griffin, was out of this world, as were decorations. Guests, in addition to the above mentioned and respective husbands, Bob, Marvin and Joe, were Vi Cunningham (minus Lloyd who was called to St. Petersburg by the death of his brother), Eddie Engelhorn, Jay Jarbo, newweds Barbara and Timmy Fagen, Paulette Glass, Lou Fernandez of course, David Fagen and we almost forgot, one of the more congenial guests, Red.

Waiting time

Margie Kempf is all excited over the prospect of becoming a grandmother for the second time. Daughter Margie and husband Joe Church are, naturally, to be the new one's parents. Millie and Joe Church are paternal grandparents.

Their many local friends will be happy to learn that Tami and Doc Bosch's happily awaited actress arrived on Sunday, May 16, in a Crescent City hospital weighing six pounds, 13 ounces. She is to be christened Robyn Beth and is eagerly looking forward to her first visit to the Bosches' Waveland home.

Winnie and Jack Holm arrived as usual for the weekend, but their activities were sharply curtailed by the fact that Winnie had an unpleasant (what an understatement!) summer cold.

Sad farewell

It is with much reluctance that we bid farewell to Shannon and Tom Roseberry and family. Tom received an excellent promotion, so they're off to Omaha, Neb., but we're sure we'll be seeing them on vacations.

With the present pace, really nothing should surprise us, but we were amazed to see our old friend Gus Maurigi completely shelling a huge MTF his around the corner of Main Street on Friday.

SIGHTS AND SOUNDS ALONG THIRWAY - Sun-browned faces almost miraculously rejuvenated by warmly welcomed muscous, swarms of birds happily splashing in resulting puddles, more and more trees in Madison Avenue type style. At League College and here, almost replacing the summer in accustomed sport shirts, and the sound of Dr. Bessie Lullaby drifting from the Good Hope truck selling little seeds to purchase their daily ice cream.
